14 March	HW	22.34	A Bindon / M Sherwood				

Important Notes!

People doing race officer / rescue boat duty will be awarded their average points for the series. People are welcome to swap dates with others to suit, however **failure to fulfil a duty will result in non-discardable points of DNC+5 for that evenings races**. Courses are as per the course sheet. Course type and number of rounds should be displayed on the committee boat whiteboard prior to the start of each race. First start each week is at **1745** so make sure your get there in time! Usually sufficient to have the RIB on the water by around **1720** which gives enough time to set the courses and set up the start line.

Depending on the size of the fleet 2 people may be required to record finish times so a third person willing to help with the second RIB may be of benefit. Volunteers always welcome! The intent is that most people will only be required to do a maximum of 2 duties per year.

Target race length is 30 minutes give or take 10 minutes. Some evenings are tight for time, so try to get the evening started on time, especially if course changes are likely to be required.

Fast fleet is considered to be Laser, Radial, Splash, Mistral, Finn, Farr 3.7, Contender, Javelin, Flying Dutchman, MG, Sunburst with kite (for the masochists!), etc.

Slow fleet is considered to be Starling, Flying Ant, Sunburst no kite, P Class, Optimist (including wing sail), etc
